INDEX

Biography
Thomas Hinks and his family: their Yorkshire connections and contributions to natural history, 59-65

Book Reviews
48, 56, 58, 66, 88, 95-96, 100, 106, 135-136, 156, 162, 174

Botany
Habitats and rare plants of the Durham and southern Magnesian Limestone natural areas, with reference to the SSSI series, 23-27; *Rubus* species from within the western borders of Watsonian Yorkshire, 107-112; Botanical reports for 1998, 131-134; Alien records 1997/1998, 134-135; The flowering plants of Spurn Point, 163-173

Chiroptera
Vertebrates of the southern Magnesian Limestone, 35-36; Mammals and Herptiles of the southern Magnesian Limestone natural area, 27-34; Bat studies in the Don Gorge, 41-42

Coleoptera
Saproxylic beetles assemblages in Sherwood Forest, 67-74

Conservation
Magnesian Limestone ecosytems of northern England: what is their future in the 21st century? 12-16; Recording natural areas: mapping the conservation "sites" of the Magnesian Limestone, 17-21; Habitats and rare plants of the Durham and southern Magnesian Limestone natural areas, with reference to the SSSI series, 23-27; Ranking the nature conservation importance of sites: ponds in north-west England, 49-54

Diptera
Entomological report: Diptera (Tipuloidea and Empidoidea), 83-87

Ecology
Magnesian Limestone ecosytems of northern England: what is their future in the 21st century? 12-16

Freshwater Biology
Ranking the nature conservation importance of sites: ponds in north-west England, 49-54

Geology
Magnesian Limestone: a basic framework, 4-11

Herptiles
Mammals and Herptiles of the southern Magnesian Limestone natural area, 27-34

Hymenoptera
Entomological report 1993-1997, Hymenoptera: Symphyta, 57-58; The aculeate wasps and bees of Holmehouse Wood, near Keighley, 75-82

Invertebrates
Threshold faunas in caves and tunnels within the Magnesian Limestone of the Don Gorge, 37-41; Invertebrates of the southern Magnesian Limestone, 45-47; Invertebrate interest of the southern Magnesian Limestone, 47-48

Lichenology
Lichens of the Magnesian Limestone, 22; Lichen flora of the West Yorkshire conurbation – supplement VI (1994-98), 113-116

Mammals
Mammals and Herptiles of the southern Magnesian Limestone natural area, 27-34; Yellow-necked mouse at the edge of its north-west distribution in Britain, 89-95; Collection of nest material by the common shrew, 97-100

Marine Biology
Actinians beached in large numbers on the south Lancashire coast, 55-56

Mollusca
Mollusca of the Magnesian Limestone of Yorkshire, 42-45; Status and distribution of *Pisidium tenuilineatum* in the River Wharfe, 101-106

Obituary
Dunstan Hugh Adams (1914-1999), 88

Orthoptera
Alien grasshoppers in Yorkshire, 65

Vegetation History
Vegetation history of Yorkshire, 137-156; History of carr woodland at Birks Wood, northern Lake District, 157-162

Vertebrata
Vertebrates of the southern Magnesian Limestone, 35-36; Mammals and Herptiles of the southern Magnesian Limestone natural area, 27-34; Threshold faunas in caves and tunnels within the Magnesian Limestone of the Don Gorge, 37-41

Yorkshire Naturalists' Union
Proceedings of Spring Conference on the Magnesian Limestone, 1998, 3-48; Yorkshire Naturalists' Union excursions in 1998, 117-131; Presidential address, 1998, 137-156
